Description

Simcod syrup is a balanced combination of eight essential vitamins and cod liver oil which adequately replenishes the deficiency of vitamins and maintains the proper growth and resistance of body against diseases.

Simcod syrup contains vitamin A, D, C, B₁, B₂, B₆, E, Nicotinamide & Cod liver oil which are essential for normal metabolic functions including hematopoiesis. Vitamin A plays an essential role in the function of retina and essential for growth and differentiation of epithelial tissue. Vitamin D is supplemented for prevention and cure of nutritional and metabolic rickets and for treatment of hypoparathyroidism. Vitamin C is involved in tissue repair and collagen formation. The members of vitamin B are components of enzyme systems that regulate various stages of carbohydrate, fat and protein metabolism, each of the components playing a specific biological role.

Indications

Simcod syrup is indicated for the treatment & prevention of vitamin deficiencies associated with restricted diets, improper food intake & decreased absorption. It is also indicated in children with increased requirement for vitamin due to acute & chronic diseases, vitamin lacking symptoms for growing children, lack of appetite including patient under rehabilitating period.
